

SHELF LIFE STATEMENT

Product name	Maleic Anhydride (pastille)
---------------------	------------------------------------

MOL branded Maleic Anhydride (pastille) product has a shelf life of 3 months from the date of production, provided it is stored in a cool, dry, well ventilated area, in accordance with the instructions of the SDS. Areas where there is high potential risk of fires must be avoided. The product must be very well protected from moisture and oxidizing materials.

Please be noted that due to the effect of atmospheric moisture on maleic anhydride, the solidification point may be reduced and the maleic acid content may exceed the specified limit if the material is stored for a considerable period under humid conditions.
